Simon Pegg rarely plays people who do not dream of having fun at all, because their essence and characters are so naturally manifested in the course of actions. Unlike, say, such heroes as Billy and Torquilla, Simon Peggs does not always count on a happy outcome of the situation, is not afraid to raise his hand to the situation, not be afraid to hurt someone who is close. But Peggy, like every woman, does not fully succumb to the logic of what is happening. She is in constant search, she wants to be beautiful, and smart, and popular, and caring, and so on. However, this desire does not prevent her from living according to the principle "whatever I want, I turn back." On the contrary, she succeeds in what smart people cannot achieve, and when she tries to apply this principle to real life, she finds herself in difficult situations. The film has a lot of funny scenes, but first of all, it's a visual series. It has a lot of different techniques, a variety of special effects that cause a huge amount of emotions. The main character of this comedy is the real Booby-Bumbia. Each of her lovers wants to win her hand, but each eventually understands that her heart is not free. Sarafina, Simon and the girls all dream of getting closer to this perfect Bubba. And then they together decide to bring discord into her heart, and their endless quarrels begin. It is with scandals that the funniest stories often begin. The writers did a lot of work with the screensavers. And although I am not a supporter of clip editing, here it is beautiful. It's just a pity that such beauty does not work out in real life. Or maybe it's for the best? Music. This is a wonderful soundtrack, in which many popular melodies are heard. But at the same time, I did not notice that he was too intrusive. It does not irritate, but only emphasizes some moments of the film, while the plot remains as it should be.
