Tennessee State Senator Mae Beavers (D) is today's winner of the 2015 Daily Caller News Foundation Hero of the Year award in her state of Tennessee. Despite being in the minority, Beavers is one of the most effective state legislators in the country. She has campaigned tirelessly and effectively for many causes — including being a vocal supporter of Kim Davis. In 2012, then-House Speaker Joe Lyons threatened to expel Beavers from the Senate after she spoke out against taxpayer funding for abortion clinics. "I told her that it's time for her to move on," a source told the Tennessean. "Her criticism of pro-abortion legislators, and her stance on their issues, was affecting her ability to do the job she was hired to do." But Beavers' tactics and refusal to be silenced are not just unique to Tennessee. In 2011, Beavers was the lone senator to vote against funding for Planned Parenthood. Beavers, who represents the 68th district in Nashville, is also a founder and steering committee member of the American Family Association's Affiliate for Religious Liberty. "God of course is the author of life," Beavers said about abortion. "We're also sure that abortion is the fastest growing segment of our military today." Here's a video of Beavers speaking at a rally in late July 2015: As for Davis, Beavers' defense of her will be featured in next year's Biopic about her experience. Kim Davis, the Movie is directed by Academy Award-winning filmmaker Joe Berlinger. "There is no one person who has done more in the last year to help her fellow Americans come to understand and know better that their rights come from God, not from government," Rauner said in a statement. "Senator Beavers has worked tirelessly for years to defend the faith and

REVIEWS ELDBETWOE ANCHOR: THE ELDDEN RING: El Warong Warong — The "World of Seven Skies" of the Myth Throughout time, heroes have risen to war against the tyrannical overlord known as The Goddess of Darkness, although the results were insufficient. Now a peaceful civilization has broken the boundary of reality, where embittered strangers wander in search of their destinies. In this fantasy world, the boundary is a veil that absorbs, consumes, and destroys everything around it. If a normal being ventures here, they'll never be able to return. The story is in a broken and shattered world, and each shattered piece is called the Lands Between, where the seven skies shine brilliantly over a vast war ground. It is beyond the grasp of the goddess, and her armies' reach, for it is ungoverned by the goddess and is unconquered by the goddess' armies. Even the goddess herself can not enter that place. In this world, there are countless otherworldly creatures running amuck in the Lands Between, where fierce clashes and tempests occur. While the players live out their lives as mortals, they can meet characters that are also living their separate lives, and move on to new destinations while experiencing their own story. Using a character editor, you can create your own original hero that will embark on a journey of their own. Using magic and strength, meet challenges and become stronger through countless struggles, fighting along with others in the Lands Between.

OVERVIEW DESCRIPTION Plot: The Land Between, along with a vast number of worlds, are currently being used as the place from which to transport humans across the galaxy. However, their continuous use and the long hours of travel has gradually dried up the land between. In order to recover the lands between, you must first rescue an angel who has fallen from the heavens. Climbing back up, the order of the Elden, an organization that protects the lands between, seeks the angel. They set forth with the help of the Tarnished, a military unit that fights the evil that emerges from the lands between. It is the beginning of the story of the epic drama that spreads across the lands between. **Mechanics:** Holder The holder is a melee weapon using the power of the Elden Ring. When you use magic, the holder functions as a small shield, increasing the durability of your magic. **New type of weapons:** Steadfast, a weapon that uses the power of the land between. The steady weapon is made up of a black horn and is a weapon that consumes the power of the lands between. Using it will transport you into the lands between. Without expending any energy, you can instantly use magic and abilities. If you use the steady weapon, you can then travel to the lands between, explore other worlds, and fight monsters. **Gear** The item that is equipped on the body of your character will be classified into one of four types: armor, weapons, armor accessories, and magic accessories.
