Select which items you want to remove. .Q: Calling python module outside of its context I am trying to make use of a python module (ip\_extract) but I am not sure how to call it in my script. I am trying to run import ip\_extract I get the error: Unable to import module 'ip\_extract' (file not found): couldn't find xxx Any ideas? thanks A: Did you create an empty python file in that directory (where the ip\_extract file is)? [Study on the relationship between obesity and coronary artery disease]. In this study, relationships between coronary artery disease (CAD) and obesity, and anthropometric and biochemical factors such as the body mass index (BMI), waist circumference (WC), and apolipoprotein B (Apo B) and cholesterol were investigated in 92 consecutive patients with CAD who underwent coronary angiography. Apo B/Apo AI ratio was also calculated. High-density lipoprotein (HDL) was defined as HDL-cholesterol (HDL-chol) greater than 50 mg/dl. Patients were divided into four groups according to the number of severely stenosed coronary arteries: single (10 patients), double (22 patients), triple (24 patients), and four-vessel disease (30 patients 79a2804d6b
